FIXED-PRICE TECHNICAL REVIEW

MICROSOFT 365 SECURITY REVIEW

For Small Businesses & Charities on Microsoft 365

Get the Security You're Already Paying For

You're already paying for Microsoft 365. Are you getting the security you're entitled to? Most small tenants have gaps nobody has checked: legacy sign-ins left open, too many Global Admins, weak email protection and files shared too widely. This deep, read-only review checks your tenant against good practice, with advice matched to your licences.

FIXED PRICE
£795
UP TO 50 USERS
ONE MICROSOFT 365 TENANT
LICENCE-AWARE ADVICE

WHAT'S INCLUDED

01 Identity & MFA
- MFA coverage and legacy sign-ins

SCOPE, PRICES & TERMS

M365 Security Review — What You Get

A deep, read-only review of your Microsoft 365 tenant, at a fixed price.

SCOPE STATEMENT

The Microsoft 365 Security Review is a technical review of one Microsoft 365 tenant. Alexander checks identity and MFA, admin access, email protection, SharePoint, OneDrive and Teams sharing, device compliance and audit logging, measured against the CIS Microsoft 365 Foundations Benchmark and Microsoft Secure Score.

Every recommendation is matched to your licences. Conditional access, for example, needs Entra ID P1 (included in Business Premium, E3 and E5); on Business Basic or Standard the advice is security defaults instead. The review is read-only: Alexander does not change your settings, and your IT team or provider carries out the fixes.

CHOOSE YOUR SIZE	STANDARD Up to 50 users · MOST POPULAR	EXTENDED 51–150 users
Microsoft 365 tenants	**1**	1
Senior time	**1–1.5 days**	2 days
