

AI SECURITY REVIEW

For Small Businesses & Charities Adopting AI Use AI Without Leaking Data or Losing Control

Staff are already using AI tools, often ones nobody has approved. Each one is a route for client data, personal information or confidential documents to leave your organisation. This review finds what is in use and where the risks are, and gives you a clear policy and plan for using AI safely.

WHAT'S INCLUDED

01 AI Tool Inventory - Approved and unapproved tools - AI built into your software - Who uses what, and for what	02 Data Protection - What data reaches AI tools - Supplier terms and data use - UK GDPR considerations	03 Prompt & Access Risks - Prompt injection exposure - Over-reliance on AI output - What AI assistants can reach
04 Policy & Governance - AI acceptable use policy - Roles and approval process - Plain-English staff guidance	05 Action Plan - Risks ranked by impact - Quick wins for this month - Roadmap for safe adoption	WHY REVIEW AI NOW? AI tools spread faster than policy. A review stops data leaking out while you keep the productivity gains.

WHO IS THIS FOR?

- Teams already using AI tools
- Firms adopting AI assistants
- Charities with personal data
- Leaders needing an AI policy

YOU WILL RECEIVE

- An inventory of AI in use
- A ranked list of AI risks
- A ready-to-adopt AI policy
- A safe-adoption roadmap

AI Security Review — What You Get

A practical review of how your organisation uses AI, at a fixed price.

SCOPE STATEMENT

The AI Security Review gives organisations a senior, independent view of how AI is being used and where the risks sit. Alexander builds an inventory of the AI tools in use, including unapproved ones, reviews what data reaches them, checks supplier terms and assesses prompt and access risks. You then get an AI use policy and a prioritised plan.

Findings are mapped to recognised good practice, such as ISO/IEC 42001 and the UK government’s Code of Practice for the Cyber Security of AI. The review is advisory: it does not test or attack your AI systems, and it is not legal advice.

CHOOSE YOUR SIZE	STANDARD Up to 50 staff · MOST POPULAR	EXTENDED 51–150 staff
AI tool inventory	Included	Included
Senior time	1 day	1.5 days
Staff survey	Included	Included
