

CERTIFICATION READINESS

CYBER ESSENTIALS READINESS

For SMBs & Charities

Pursuing Cyber Essentials Certification

Cyber Essentials looks simple on paper, but most organisations fail their first submission on basics — unmanaged devices, missing patching evidence, weak firewall configuration. Our Readiness Package prepares you to pass first time, and puts a valuable credential to work in tenders, insurance renewals and funding bids.

PLEASE NOTE — This is an independent readiness & preparation service, not certification itself. Certificates are issued only by an IASME-licensed Certification Body — we prepare you to pass first time and can submit on your behalf through an accredited partner.

WHAT'S INCLUDED

 01 Gap Assessment - Review vs. all 5 CE control themes - Full IT estate & device audit - Evidence gaps clearly identified	 02 Remediation Roadmap - Prioritised, plain-English fix list - Ranked by risk and effort - Owner assigned to each item	 03 Readiness Workshop - Live session with your team - Closes common failure points - Q&A ahead of submission
 04 Submission Support - SAQ completion support - Optional partner-body submission - Less back-and-forth with assessor	 05 CE Plus & Bundled Option - Optional CE Plus uplift - Technical audit support - Bundled certification fee available	

WHO IS THIS FOR?

-  SMBs needing certification for insurance
-  Charities meeting funder requirements
-  Firms bidding for public-sector tenders
-  Anyone facing client security due diligence

YOU WILL RECEIVE

-  A successful Cyber Essentials submission
-  A documented security baseline
-  A credential ready for tenders & insurers
-  Guidance for next year's renewal

WHY WORK WITH ALEXANDER?

Alexander Akinjayeju

-  Cyber Security Leader
