

CYBER ESSENTIALS READINESS

For Small Businesses & Charities

Pass First Time, Then Put It to Work

Cyber Essentials looks simple, but many first submissions fail on the basics: unmanaged devices, missing patch evidence and weak firewalls. We prepare you to pass first time, then put the certificate to work in tenders, insurance and funding bids.

PLEASE NOTE: independent readiness service, not certification. Certificates are issued only by an IASME-licensed Certification Body.

WHAT'S INCLUDED

01 Gap Assessment ✓ Checked against all five controls ✓ Devices, accounts and network ✓ Evidence gaps identified	02 Fix Roadmap ✓ Prioritised, plain-English fix list ✓ Ranked by risk and effort ✓ An owner for every item	03 Readiness Workshop ✓ Live session with your team ✓ Common failure points closed ✓ Q&A before submission
04 Submission Support ✓ Help with the questionnaire ✓ Final evidence check ✓ Optional submission via partner	05 Ready for Renewal ✓ Renewal checklist for next year ✓ Cyber Essentials Plus option ✓ A baseline to build on	WHY GET CERTIFIED? Needed for many public-sector contracts, and it reassures insurers, clients and funders.

WHO IS THIS FOR?

- ✓ Public-sector bidders
- ✓ Charities meeting funder terms
- ✓ Suppliers facing due diligence
- ✓ Firms renewing cyber insurance

YOU WILL RECEIVE

- ✓ A score on all five controls
- ✓ A prioritised fix list
- ✓ Submission-ready answers
- ✓ A renewal checklist

Cyber Essentials Readiness — What You Get

Get ready to pass Cyber Essentials first time, at a fixed price.

SCOPE STATEMENT

Cyber Essentials Readiness prepares organisations for Cyber Essentials, the UK government-backed certification. Alexander checks your devices, accounts, firewalls and software against the five technical controls, gives you a prioritised fix list, runs a workshop with your team and supports you through the self-assessment questionnaire.

This is an independent readiness service. Certificates are issued only by an IASME-licensed Certification Body, and the certification fee is paid separately, either directly or through our accredited partner. Alexander advises on the fixes; your IT team or provider carries them out.

CHOOSE YOUR SIZE	STANDARD Up to 50 staff · MOST POPULAR	EXTENDED 51–100 staff
